

HELP US BUILD A PLACE WHERE CHILDREN CAN GROW FREELY

Ťahanovská Záhrada provides a space and conditions for informal education and shared time in an inclusive community that is diverse in age and background. Since 2017, we have been promoting the ideas of community gardens, a sharing economy, sustainability, and inclusion. We established a private democratic elementary school of self-directed education, Slobodná škola, which offers a safe learning environment for hundreds of diverse students from across Slovakia.
